

PRESS RELEASE
February 5th 2018, Brussels

Flexo Best Practice Tool Box – Kodak New Supporter & Work In Progress!

With the 2018 just started, FTA Europe is pleased to announce that Kodak has committed to become a supporter of the Flexo Best Practice Tool Box! Kodak has recently opened its Flexo Hub in Brussels, enlarging also the opportunity to strengthen the cooperation with FTA Europe. Kodak joins the other companies that have previously committed to support the Project: Uteco, Asahi Photoproducts, Lohmann, I&C-Gama, Esko, Rossini, Praxair, RKPrint, ColorConsulting, and AV Flexologic-Tech Sleeves.

Concerning the preparation of the Tool Box, the FTA Europe Technical Working Group is continuing working on the next chapters of the final document, after having concluded the first sample which content is only accessible for already supporting companies. The works will continue over the course of 2018. An Advisory Panel meeting has been recently organised and a new webinar aimed also at involving the experts from supporting companies should be settled soon. A promotional video is also now available on the [FTA Europe website](#) where all the information about presentation, structure and objectives of the Tool Box is reported.

Interested companies can still support the project, and FTA Europe is counting on them to provide both expertise and financial support for the creation of the final version of the Toolbox. Companies interested in supporting the Project or need more information can contact Luca Conti lconti@fta-europe.eu.

FLEXO BEST PRACTICE TOOL BOX

The European Guidelines Explaining Flexographic Printing

Companies joining the project:

Companies willing to support the
Flexo Best Practice Tool Box should contact
